

Elk of the Month

The hot August nights in the lodge were corrected by my choice, for this month's Elk of the Month.

He was fixing a broken water line and working on our air-conditioning units with a temperature of 115 degrees on the roof of the lodge. Our Friday night dinners and events have been much more comfortable lately. Please thank him when you see him.

Ron Greenwood, you are a cool guy, and this month's special Elk.

Carol Hewitson E.R.
